

# Lab 2

## Exercises

Create programs that render

1. a red square
2. an orange regular pentagon
3. your initials (two shapes, first name initial and last name initial) in your favourite color, where the color is defined from the application stage (see `test_passar_info_shaders.py`). Note that the letters *must* have area.

Grading of individual assignment:

Point: 5 + 5 + 10 (respectively)

To be presented to the teacher in next week class.
